PATENT AND TRADEMARK OFFICE NOTICES

Patent Cooperation Treaty (PCT) Information

For information concerning PCT member countries, see the notice appearing in the *Official Gazette* at 1277 O.G. 74, on December 16, 2003.

Either the United States Patent and Trademark Office (USPTO) or the European Patent Office (EPO) may act as the International Searching Authority (ISA) for an international application filed with the United States Receiving Office or the International Bureau (IB) as Receiving Office where at least one of the applicants is either a national or resident of the United States of America. However, the EPO is no longer a competent ISA, within the meaning of PCT Article 16(3), for international applications filed by U.S. residents or nationals on or after 01 March 2002 in the USPTO or IB as Receiving Office, and where the application contains one or more claims directed to the fields of biotechnology or business methods. For the definition of what the EPO considers to be precluded subject matter in the fields of biotechnology and business methods, applicants should see the "Notice from the President of the European Patent Office," dated 26 November 2001, and which is published as Annex A in the "Notice Concerning EPO Competence to Act as PCT Authority" in the *Official Gazette* at 1255 O.G. 878, on February 19, 2002.

The European Patent Office may act as the International Preliminary Examining Authority (IPEA) for an international application filed in the United States Receiving Office or the International Bureau as Receiving Office where at least one of the applicants is either a national or resident of the United States of America, provided that the European Patent Office acted as the International Searching Authority. However, the EPO is no longer a competent IPEA, within the meaning of PCT Article 32(3), for international applications filed by U.S. residents or nationals in the USPTO or IB as a Receiving Office where the corresponding demand is filed with the EPO on or after 01 March 2002, and where the application contains one or more claims directed to the fields of business methods or telecommunication. For the definition of what the EPO considers to be precluded subject matter in the field of telecommunication, applicants should see the "Notice from the President of the European Patent Office," dated 26 November 2001, and which is published as Annex A in the "Notice Concerning EPO Competence to Act as PCT Authority" in the *Official Gazette* at 1255 O.G. 878, on February 19, 2002.

The EPO resumed its competence as an International Searching Authority and International Preliminary Examining Authority, effective January 1, 2004, for international applications filed by nationals or residents of the United States of America where the application contains one or more claims relating to the field of biotechnology. This change was announced in the *Official Gazette* at 1277 O.G. 230, on December 30, 2003.

The search fee of the European Patent Office was increased, effective January 1, 2004, and was announced in the *Official Gazette* at 1277 O.G. 210, on December 30, 2003.

International fees were changed, effective on January 1, 2004, due to amendments made to the Regulations under the Patent Cooperation Treaty (PCT) that will take effect on January 1, 2004. The change in the schedule of PCT fees was announced in the *Federal Register* on October 20, 2003.

Changes to Representation of Others Before the United States Patent and Trademark Office

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Notice of extension of comment period

SUMMARY: The United States Patent and Trademark Office (Office or USPTO) is extending the public comment period on proposed rules 1.4(d)(2), 1.8(a)(2)(iii)(A), 1.21(a)(6) through (a)(9), 1.21(a)(11), 1.21(a)(12), 2.11, 2.17, 2.24, 2.33, 2.61, 11.2(b)(4) through 11.2(b)(7), 11.3(b) and (c), 11.5(b), 11.8(d), 11.9(c) (last two sentences), 11.9(d), 11.10(c) (second sentence), 11.10(d) (second sentence), 11.10(e) (second sentence), 11.11(b) through (f), 11.12 through 11.62, and 11.100 through 11.900, as well as the definitions in proposed rule 11.1 of terms that are used only in rules in Subparts B, C and D, USPTO Rules of Professional Conduct, published in the Federal Register on December 12, 2003, 68 FR 69442. This extension applies to all portions of Subparts C and D of the proposed rules, and those portions of Subparts A and B not relating to enrollment of new patent practitioners. This extension will allow additional time following publication on December 12, 2003, for public comment regarding the Office's proposals for annual fees, mandatory continuing education, and processes for handling investigations and disciplinary proceedings.

DATES: You must submit your comments by Friday, June 11, 2004. The Office may not necessarily consider or include in the Administrative Record for the proposed rule comments that the Office receives after the close of this extended comment period or comments delivered to an address other than those listed below.

ADDRESSES: Comments should be sent by electronic mail over the Internet addressed to: ethicsrules.comments@uspto.gov. Comments may also be submitted by mail addressed to: Mail Stop OED-Ethics Rules, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, Virginia 22313-1450 or by facsimile to (703) 306-4134, marked to the attention of Harry I. Moatz. Although comments may be submitted by mail or facsimile, the Office prefers to receive comments via the Internet. If comments are submitted by mail, the Office would prefer that the comments be submitted on a DOS formatted 3 1/2-inch disk accompanied by a paper copy. The comments will be available for public inspection at the Office of Enrollment and Discipline, located in Room 1103, Crystal Plaza 6, 2221 South Clark Street, Arlington, Virginia, and will be available through anonymous file transfer protocol (ftp) via the Internet (address: http://www.uspto.gov). Since comments will be made available for public inspection, information that is not desired to be made public should not be included in the comments.

FOR FURTHER INFORMATION CONTACT: Harry I. Moatz ((703) 305-9145), Director of Enrollment and Discipline (OED Director), directly by phone, or by facsimile to (703) 305-4136, marked to the attention of Mr. Moatz, or by mail addressed to: Mail Stop OED-Ethics Rules, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, Virginia 22313-1450.

SUPPLEMENTARY INFORMATION: The USPTO published the proposed rules on December 12, 2003 (68 FR 69442) and provided a 60-day comment period that ended on February 10, 2004. An earlier notice extended the time period to comment on the proposed rules with respect to Subpart D by sixty days to April 12, 2004. 69 FR 4269 (Jan. 29, 2004). A number of parties have suggested that time be extended to submit comments. More than two weeks have now passed since the original period for comments. Responding to suggestions by some parties who have submitted comments, we are expanding the scope of that extension of time to encompass not only Subpart D, but also proposed rules 1.4(d)(2), 1.8(a)(2)(iii)(A), 1.21(a)(6) through (a)(9), 1.21(a)(11), 1.21(a)(12), 2.11, 2.17, 2.24, 2.33, 2.61, 11.2(b)(4) through 11.2(b)(7), 11.3(b) and (c), 11.5(b), 11.8(d), 11.9(c) (last two sentences), 11.9(d), 11.10(c) (second sentence), 11.10(d) (second sentence), 11.10(e) (second sentence), 11.11(b) through (f), 11.12 through 11.62, and 11.100 through 11.900, as well as certain definitions in proposed rule 11.1 of terms that are used only in rules in Subparts B, C and D. Inasmuch as a response to the requested extension of time has been delayed, an additional 120 days will be given to file comments. Comments will be received by the Office on the specified proposals until June 11, 2004, to allow the public additional time to provide us with comments. The extension provides a total of nearly six months to submit comments on the specified proposed rules.

The proposed rules are a comprehensive effort by the Office to address an annual fee, mandatory continuing education, and "improve the Office's processes for handling applications for registration, petitions, investigations, and disciplinary proceedings . . ." 68 Fed. Reg. at 69442. The Office requested comments on the proposed rules and processes. In response, the Office received a reply by one set of stakeholders that the time be extended to reply to the proposed rules in Subpart D. The Office has now also received requests from individuals, law firms, professional organizations, and others requesting an extension of time to consider and respond to the proposed rules. The requests indicate that they regard proposals in Subparts A, B and C to be sufficiently related to the Rules of Professional Conduct found in Subpart D such that additional time is needed to properly and adequately address the proposal.

In response to those requests, we are extending the time for response until June 11, 2004, with the exception of those rules necessary for administration of the registration examination for patent practitioners, including those definitions that are used in those rules. Rules specific to the enrollment process are severable from the remaining proposals. The Office has received extensive comments on them and has decided to proceed to final rule making based upon those comments in order not to delay the enrollment of individuals as newly qualified registered patent practitioners. No parties should be prejudiced by the additional time accorded for comment on the remaining proposed rules.

The extended comment period provides the public an opportunity to address proposed rules 1.4(d)(2), 1.8(a)(2)(iii)(A), 1.21(a)(6) through (a)(9), 1.21(a)(11), 1.21(a)(12), 2.11, 2.17, 2.24, 2.33, 2.61, 11.2(b)(4) through 11.2(b)(7), 11.3(b) and (c), 11.5(b), 11.8(d), 11.9(c) (last two sentences), 11.9(d), 11.10(c) (second sentence), 11.10(d) (second sentence), 11.10(e) (second sentence), 11.11(b) through (f), 11.12 through 11.62, and 11.100 through 11.900, as well as the definition of terms in proposed rule 11.1 that are used only in rules in Subparts B, C and D. Time is not being extended to comment upon the provisions in proposed rules 1.1, 1.21(a)(1) through (a)(5), 1.21(a)(10), 1.31, 1.33(c), 1.455(a), 11.2(a) through 11.2(b)(3), 11.2(c) through 11.2(e), 11.3(a) and (d), 11.4 through 11.5(a), 11.6 through 11.8(c), 11.9(a) through 11.9(c) (first sentence), 11.10(a) through 11.10(c) (first sentence), 11.10(d) (first sentence), 11.10(e) (first and third sentences), and 11.11(a), as well as the definitions in proposed rule 11.1 of terms used in those rules.

SPECIAL MAIL STOPS FOR PATENT MAIL

Effective May 1, 2003, the United States Patent and Trademark Office has a new address for some mail. See Correspondence with the United States Patent and Trademark Office, 68 Fed. Reg. 14332 (March 25, 2003). The mail stop should generally appear as the first line in the address, but the term "Mail Stop" may be abbreviated "MS". Special mail stop designations should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail may be forwarded to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special mail stops. If any documents other than the specified type identified for each special mail stop are addressed to that mail stop, they will be significantly delayed in reaching the appropriate area for which they are intended. If no mail stop is included on the list below, then no mail stop is required for the correspondence (e.g., there is no mail stop for amendments with fees).

Requests for corrected filing receipt should be faxed to (703) 746-9195. Some correspondence may only be submitted via the Office's electronic filing system (EFS). Instructions on how to file and what can be filed via EFS are posted on the Office's Internet Web site http://www.uspto.gov under the Electronic Business Center section.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information for the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis optical disk series are available at all PTDLs to increase access to that information. It is through the optical disk systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) at the Sunnyvale Public Library in Sunnyvale, California.

TRADEMARK REGISTRATIONS ISSUED UNDER SECTION 1(d)

The following marks have registered on the Principal Register pursuant to the intent-to-use provisions of Section 1(d) of the Trademark Act of 1946, as amended.

SECTION 1.— INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
